

Buy a Stratos Save Money

Please ask the counter staff for more information regarding the Stratos Rebate Program

Buy a Stratos
3x3-40

and Receive
a \$1,300
Rebate!

How?

Replace a Standard Pump (1-2 HP) with a Variable speed ECM Stratos 3x3-40 and Receive your \$1,300 Rebate.

Where?

This offer is available exclusively at Wolseley and Cronkhite locations across all of British Columbia.

Why?

Recently BC Hydro Power Smart asked us to prove our claim of up to 80% energy savings with the WILLO Stratos. They hired an outside independent laboratory to test our Stratos 3X3-40 in comparison to a standard circulator.

The End Result: BC Hydro Power Smart is now offering a \$1,300 per pump rebate when a standard circulator is replaced with a WILLO Stratos 3x3-40! The actual energy savings calculated were 76% during the test period from November through May. With the rebate the payback in BC should be less than 1 year!
